

**William A. Baker**  
AIA, NCARB

Managing Principal &  
Chairman of the Board

Bill serves as the Chairman of the Board for Durrant and as Vice President and Managing Principal for Durrant's Colorado office. Specializing in justice operations, he has over 40 years of experience with all construction delivery methods, with a focus on police stations, jails and prisons in both the United States and abroad.

He has meticulous communication skills that allow for thorough and efficient responses. Bill has competence in project management, marketing, client contact, architectural and engineering design, production, contracts, risk management, and quality control. He is both a registered professional architect and a licensed civil engineer. He has worked on a wide variety of project types, including criminal justice, educational, healthcare, government facilities, and historic preservation projects.
