

# DURRANT RECEIVES 365 IMPACT AWARD FOR SUSTAINABILITY

The Durrant Group Inc. recently received the 365 Impact Award for Sustainability/Going Green. Dubuque 365 presents these annual awards to individuals, companies, and organizations that made the biggest impact in their given fields during the year.

Durrant was recognized for its focus on sustainability, having implemented sustainable design principles into many of its local projects and, most notably, into the firm's new "green" corporate headquarters. Durrant's involvement in the Sustainable Design Assessment Team (SDAT) committees and the Green Vision education program also demonstrates the firm's commitment to sustainability.

According to Managing Principal, Kevin Eipperle, "As architects and engineers, we can impact how buildings affect the environment through our processes and our designs. We have a responsibility to demonstrate to our clients how to be sustainable, from construction waste management to geothermal and solar energy."

## About Durrant

Durrant has been a leader in the A/E industry for 76 years, offering comprehensive architecture, engineering, and project delivery services across the globe. With 9 office locations across the country, Durrant continues to build on its founder's vision for growth, service, and success.

*For Immediate Release: March 2009*
