

# DURRANT GROWS CORPORATE HEADQUARTERS

FOR IMMEDIATE RELEASE: July 2, 2009

Dubuque, IA—Durrant is pleased to announce the expansion and consolidation of two of the company's Midwest offices. On July 1, 2009 Durrant merged the Madison, Wisconsin office into the firm's corporate headquarters building in Dubuque, Iowa.

This merger will allow approximately eight Madison personnel who have consistently worked on Iowa office led projects for many years, to now just be a few steps away from their fellow Durrant team members in Dubuque. Durrant feels that both clients and employees will greatly benefit from increased project coordination and teamwork between multiple disciplines located in the same office.

The expanded corporate office is reminiscent of founder, Joe Durrant's, original ideal for a design firm - a single office combining both architectural and engineering services. The newly completed corporate headquarters is an adaptive reuse of a former industrial building, and is slated for LEED Platinum certification, the highest rating given by the U.S. Green Building Council.

Durrant is an award-winning, multi-discipline architecture, engineering and construction management firm dedicated to design excellence and sustainability. From feasibility analysis through ribbon cutting, the full-service firm manages every element of design from start to finish.
