

PAT NORTON SERVED AS PRESENTER AT LOW IMPACT DEVELOPMENT WORKSHOP

Patrick Norton, PE, LEED®-AP, Civil Engineer at Durrant, recently participated as a presenter in the Low Impact Development Workshop in Dubuque.

Presented by the Conservation Design Forum, Inc. and sponsored by the Dubuque Soil & Water Conservation District, the City of Dubuque, and Durrant, the workshop was designed to give builders, contractors, developers, and engineers a chance to learn about and discuss the importance of Low Impact Development (LID).

LID is an innovative stormwater management approach with a basic principle that is modeled after nature. As one of the presenters, Pat shared the meaning of Low Impact Development and an overview of LID practices and procedures.

About Durrant

Durrant has been a leader in the A/E industry for 75 years and our 9 office locations offer comprehensive architecture, engineering, and project delivery services around the globe. At Durrant, design is our passion and our clients are our inspiration. We fuse expertise with innovation to deliver vibrant and functional designs, positively shaping the community and our environment.
